Chapter 1 — Shurley English

Lesson 4

Understanding Analogies

Learn — What Is an Analogy?

- An analogy shows how two word pairs are related.
- Spoken: boat is to goat as fan is to ___
- Written: front : back :: top : ___
- Colon (:) separates words in a pair.
- Double colon (::) means “is to ___ as”.

Worked Example — Preview

front : back :: top : _____

Worked Example — Answer

front : back :: top : bottom

Relationship: Antonym

Learn — Four Analogy Relationships

- Synonym — words mean almost the same (big : large)
- Antonym — words are opposites (big : small)
- Rhyming — words rhyme (near : deer)
- Part-to-Whole — first word is part of second (leaf : tree)

Guided Practice — Preview

1. giggle : chuckle :: unhappy : _____
