Page 2 — Lesson 1: Discussion and Goal Setting

Procedure

Ball-Passing Discussion Activity: Form a circle with students. Use a soft ball or stuffed object. The student who holds the ball shares one linking comment using a sentence starter from the page. Before tossing the ball, the student must link to what the previous speaker said. The next student repeats the pattern. Coach students who share without linking to use a starter. Run 2–3 rounds, then transition to written goal work.

Timing

15–20 minutes for Learn and Practice Together

Suggested Oral Prompts

Understanding Analogies

Learn

An analogy is a way of thinking about how pairs of words are related. It is a special word puzzle.

Spoken example: boat is to goat as fan is to _____.

Written example: front : back :: top : _____

Remember — Analogy Symbols

Colon (:) — separates the two words in each pair.

Double colon (::) — means “is to ___ as”.

“Is to” — connects the first word pair.

“As” — connects the first pair to the second pair.

Worked Example

front : back :: top : bottom

The first pair shows opposites. The second pair shows opposites too. That is an antonym analogy.

Quick Check

Try it: boat is to goat as fan is to _____. Write the word that completes the rhyme.

_____

Chapter 1 — Lesson 4

Four Common Analogy Relationships

Learn — Four Relationship Types

Study each relationship card below. Notice the large example and the short explanation.

Synonym big : large :: sound : noise The words in each pair mean almost the same.	**Antonym** big : small :: fast : slow The words in each pair are opposites.
Rhyming near : deer :: jump : stump The words in each pair rhyme.	**Part-to-Whole** leaf : tree :: paw : dog The first word is part of the second.
